

WE Smart Lab A Structured STEM Learning Ecosystem for Schools

Designed for schools through CSR
partnerships and private school
implementations.

A hands-on Smart Lab program
enabling age-appropriate STEM
learning, teacher support,
and measurable student outcomes.

Implemented across government and private schools in multiple states.

Smart Lab Infrastructure – Before & After

Illustrative transformation from conventional classroom to WE Smart Lab learning environment.

Student Learning Benefits

-  Hands-on, activity-based learning for stronger concept clarity
-  Small batch learning with shared DIY kits to encourage collaboration
-  Regular guidance from trained, on-site instructors
-  Grade-wise curriculum aligned to age-appropriate STEM progression
-  Continuous assessments to track understanding and improvement
-  Structured course journals and workbooks for every student
-  Digital progress tracking and evaluation support for teachers
-  AI-assisted learning tools integrated within the curriculum
-  Periodic parent communication on student learning progress

Grade-Wise STEM Learning Kits Included in WE Smart Lab

The WE Smart Lab includes structured, grade-specific STEM kits aligned with the school curriculum.

Grade 1: Masterboard
(Sensor-Based Learning)

Grade 2: Micro:bit
(Visual Programming)

Grade 3: Structural &
Mechanism Building

Grade 4: Electronics
Fundamentals + 3D Printing

Grade 5: App Dev
+ Otto Bot

Grade 6: Arduino
(Automation & IoT)

Kit configuration and depth may vary based on grade range and school requirements.

Advanced Learning Modules & Workshops (Grades 7–9)

Grade 7: Intelligent Robotics (ML Concepts)

Grade 8: Web Dev & Robotic Arm Control

Grade 9: Raspberry Pi (Automation)

Workshop: Robotic Arm

Workshop: Electronics & Soldering Basics

Workshop: Drone Technology

Workshop: Smart Home & IoT Systems

Advanced-grade modules and optional workshops offered as standardized WE Smart Lab extensions.

WE Smart Lab – Available Lab Configurations

WSL20 Lab (Entry Configuration)

WSL30 Lab (Expanded Configuration)

1

WSL20 Lab

Designed for foundational robotics and AI exploration, WSL20 empowers up to **400** students (**20 per batch**) making sure every child gets **2 lecture/week** with hands-on learning experiences.

2

WSL30 Lab

WSL30 takes robotics and AI exploration to the next level, accommodating up to **600** students (**30 per batch**) making sure every child gets **2 lecture/week** with hands-on learning experiences.

*Final deployment depends on school strength, timetable, and implementation model.
Core infrastructure and learning outcomes remain unchanged.*

WE Smart Lab – Overview (WSL20 & WSL30)

The following reflects a standard reference configuration for transparency and audit clarity.

WSL20 Lab Package

Category	Included Qty
Furniture	37
Interior Upgrades	33
Models / Exhibits	90
Workshop Models	17
Accessories	13
Drone	4
3D printer	1
Smartphone	1
Projector	1
Laptop	1
Total	198

WSL30 Lab Package

Category	Included Qty
Furniture	50
Interior Upgrades	40
Models / Exhibits	135
Workshop Models	24
Accessories	20
Drone	5
3D printer	1
Smartphone	1
Projector	1
Laptop	1
Total	278

Final configuration and quantities may be adjusted based on school strength, grade range, and implementation model, while maintaining overall learning outcomes.

WSL20 Smart Lab – Standard Specification

Furniture & Interior Upgrades

Item	Category	Units
Hexatable (with 3 sockets)	Furniture	4
Chairs	Furniture	21
Table (3x2)	Furniture	1
Sidetable (trapezium)	Furniture	3
Cupboard (4x2.5)	Furniture	1
Wall Shelves (Product Disp)	Furniture	6
Whiteboard (4x3)	Furniture	1
Paint (Overall whitewash + theme)	Interior Upgrades	1
Tubelight	Interior Upgrades	9
Fan	Interior Upgrades	4
2 pin Socket + Switchboard	Interior Upgrades	4
Main Switch	Interior Upgrades	1
Poster A3 (12)	Interior Upgrades	12
WSL Poster	Interior Upgrades	1
Electric Job (Wiring Underground)	Interior Upgrades	1

Models, Exhibits & Equipment

Item	Category	Units
Masterboard	Model/Exhibit	10
Microbit (Scratch)	Model/Exhibit	10
Mechanix	Model/Exhibit	10
3D Modeling & Printing + Basics of Electronics	Model/Exhibit	10
Mobile App Dev + Otto Bot	Model/Exhibit	10
Arduino	Model/Exhibit	10
Leo: The Programmable Car (AI)	Model/Exhibit	10
HTML + Robotic Arm SG90 (Robotics) (ML)	Model/Exhibit	10
Raspberry Pi	Model/Exhibit	10
Soldering Workshops	Workshops Model	10
Hardware Tools Workshop + Tools Wall Mounts	Workshops Model	1
Smart Home (IoT)	Workshops Model	3
Robotic Arm MG995 (ML)	Workshops Model	3
Drone	Drone	4
Filament	Accessories	3
Safety Kits	Accessories	10
3D Printer	3D Printer	1
Smart Phone	Smart Phone	1
Projector	Projector	1
Laptop	Laptop	1

Quantities are defined to ensure consistent student capacity, safety, and learning outcomes. Variations are not permitted below this specification.

WSL30 Smart Lab – Standard Specification

Furniture & Interior Upgrades

Unit	Category	Units
Hexatable (with 3 socket)	Furniture	6
Chairs	Furniture	31
Table (3x2)	Furniture	1
Sidetable (trapezium)	Furniture	3
Cupboard (4x2.5)	Furniture	2
Wall Shelves (Product Disp)	Furniture	6
Whiteboard (4x3)	Furniture	1
Paint (Overall whitewash + theme)	Interior Upgrades	1.5
Tubelight	Interior Upgrades	12
Fan	Interior Upgrades	6
2 pin Socket + Switchboard	Interior Upgrades	6
Main Switch	Interior Upgrades	1
Poster A3 (12)	Interior Upgrades	12
WSL Poster	Interior Upgrades	1
Electric Job (Wiring Underground)	Interior Upgrades	1

Models, Exhibits & Equipment

Ultnemit	Category	Units
Masterboard	Model/Exhibit	15
Microbit (Scratch)	Model/Exhibit	15
Mechanix	Model/Exhibit	15
3D Modeling & Printing + Basics of Electronics	Model/Exhibit	15
Mobile App Dev + Otto Bot	Model/Exhibit	15
Arduino	Model/Exhibit	15
Leo: The Programmable Car (AI)	Model/Exhibit	15
HTML + Robotic Arm SG90 (Robotics) (ML)	Model/Exhibit	15

Filament	Accessories	5
Safety Kits	Accessories	15
3D Printer	3D Printer	1
Smart Phone	Smart Phone	1
Projector	Projector	1
Laptop	Laptop	1

Quantities are defined to ensure consistent student capacity, safety, and learning outcomes. Variations are not permitted below this specification.

WE Smart Lab – Annual Subscription Models

The WE Smart Lab operates on an annual subscription model covering curriculum delivery, dedicated trainers, lab operations, assessments, and academic reporting.

The following models represent standard reference configurations based on student capacity and staffing requirements.

Plan Name	Student Capacity	Dedicated Trainer	Lab Setup	Annual Fee Per Student
WSL20	400	1	1	₹2,050
WSL30	600	1	1	₹1,700
WSL30 V.2	800	2	1	₹1,600

Fees cover academic delivery, trainer deployment, assessments, curriculum resources, and ongoing lab operations. Hardware and infrastructure specifications remain consistent with the selected WSL configuration.

For Further Discussion & Clarifications

For implementation discussions, clarifications, or site-specific planning, please reach out using the contact details below. Our team will support the next steps as required by your institution or CSR process.
